

# BIOZYMES SERIES

## BIOZYMES-1030 GREASE TRAP AND DRAIN OPENER

### ***UNLOCK THE MAGIC OF NATURE WITH BIOZYMES 1030***

**Biozymes-1030 Grease Trap and Drain Opener** is an innovative microbial cleaning product consisting of a synergistic blend of enzyme producing microbes that provide effective cleaning and odor control for drains and grease traps in an environmentally responsible manner. An additional benefit of this product is that it helps to eliminate the feeding and breeding grounds for pests (insects, flies, etc.). Safe to use and easy to apply, this product has a neutral pH and is Eco Logo certifiable.

### ***DIRECTIONS***

- Apply “neat” without dilution directly to drains and grease traps

### ***DRAINS***

- Apply **Biozymes-1030** to all drains that may be the source of breeding and feeding grounds for pests (insects) or to any drain that has foul odors, or to slow moving drains. Apply as needed.

## ***GREASE TRAPS***

- Apply daily equal amounts, at the end of the day, directly to grease trap
- For best results we recommend injecting air into the grease trap

## ***RECOMMENDED DOSAGE***

- Apply 10 ounces everyday at the end of the day for the first week
- Apply 6 ounces everyday at the end of the day for maintenance
- Dosage can be adjusted to suit each application

## ***ESTIMATED MONTHLY CONSUMPTION***

- 1 – 5 gallon pail for two months (low – medium volume restaurant / quick service)
- 1 – 5 gallon pail for 1 month (high volume restaurant / quick service)

## ***AVAILABLE PACKAGING***

- Packaged in 5 US gallon pail
