

PRODUCT INFORMATION

MAGNA RUST BUSTER

Function:
Rust Remover

Application:
Rust Remover

Form:
Liquid Gel

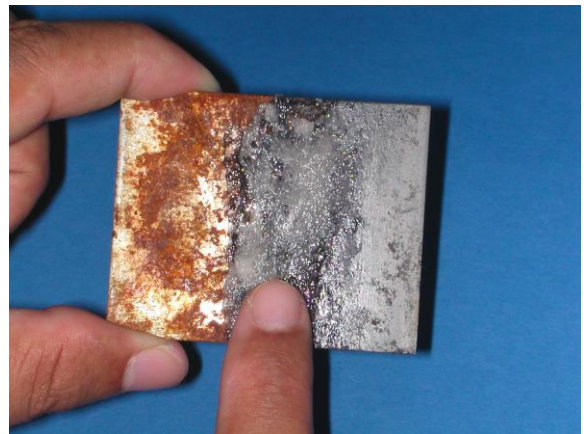

DESCRIPTION

MAGNA RUST BUSTER is a liquid gel rust remover that effectively removes rust, stains and tarnish from iron, steel, brass, copper, aluminum and chrome.

Unlike conventional liquid rust remover that drips freely, **MAGNA RUST BUSTER** prevents dripping. It increases productivity because there is no need to leave parts in a dip tank. Simply apply Magna Rust Buster on rusted parts by means of a brush or roller brush and allow it to work and then wipe it off or rinse with water. It is strongly advisable to apply a light spray of our **VAPPRO 800 VCI Degreaser** diluted at 1:1 part of water on all treated metal surfaces to neutralize the pH on the metal surface and wipe dry. The VAPPRO 800 VCI Degreaser will help prevent flash corrosion on the metal surface.

Before Treatment

**After treatment with
MAGNA RUST BUSTER**

FEATURES

- Easy waste disposal
- Effectively removes rust, stains and tarnish from both ferrous and non-ferrous metal
- Non-dripping
- Easy to handle, use and store
- Non-flammable

- Suitable for indoor, outdoor and marine applications
- Light Pleasant Scent.

APPLICATIONS

- Corroded Auto-Parts.
- Drill Rods
- Rust removal for tools & other metal parts
- Marine and offshore equipment

DIRECTIONS FOR USE

MAGNA RUST BUSTER can be applied by means of a brush. Apply **MAGNA RUST BUSTER** directly on rusted surfaces and leave for 30mins to 3 hours or a little longer depending on the severity of the rust before wiping off with a cloth. It is important to neutralize the pH on the treated metal with VAPPRO 800 VCI Degreaser Cleaner. Brush it on treated metal parts & allow sitting for about 2 minutes before wiping dry with a cloth.

PACKAGING

- 20 L Pail
- 200 L Drum

PHYSICAL PROPERTIES

Appearance	Gel
Flash point	Non-flammable
Viscosity	Liquid Gel
Odour	Mild
pH	1+0.5
