

PRODUCT INFORMATION

VAPPRO 01 FOAM EMITTER

Function:
 Vapour Corrosion
 Inhibitor (VCI)

Application:
 Electronics
 Enclosures

Form:
 Emitter

DESCRIPTION

VAPPRO 01 Foam Emitter is a vapour corrosion inhibitor impregnated foam. This VCI foam emitter is particularly suitable for corrosion protection of enclosures holding electrical gear, relays, contactors, switches, electronic assemblies and connectors. The vapours do not increase contact resistance in relays and switches and will not affect the characteristics of insulating materials, including high voltage corona or carbon tracking.

FEATURES

- Does not contain nitrites, silicones or phosphates
- Provides up to 24 months of continuous protection
- Does not increase contact resistance in relays and switches
- Does not affect the characteristics of insulating materials, including high voltage corona or carbon tracking
- Multi-metal protection
- Essentially non-toxic
- Does not need to be removed prior to processing or use
- Self-adhesive backing - no tools needed for installation
- Effective up to 1 cu. ft. protection
- Protected equipment can be used immediately
- Vapour-phase inhibiting actions protect inaccessible and deep recessed areas

APPLICATIONS

VAPPRO 01 is designed to protect electrical components, metal parts and other products when placed in non-ventilated enclosures where air exchange is limited. Some examples include:

- Switchgear and fuse boxes
- Conduits
- Motors and mechanical controls
- Tools, spare parts and components
- Printed circuit boards
- Wire ways
- Electrical and electronic equipment
- Relays and contacts

DIRECTIONS FOR USE

- Make sure that all metal surfaces to be protected are within the distance of 1 cubic ft. enclosure.
- The **VAPPRO** emitter may be positioned at the centre, corners of the enclosure, or on the enclosure walls.
- Simply remove the protective plastic wrap from **VAPPRO 01 Foam Emitter** then peel off the paper backing. Make sure surface is clean and dry. Then mount the emitter on the walls of the enclosure.
- When mounting is not required, the emitter may be inserted in a box, bag or container with the paper backing left on the emitter.

PACKAGING

- Case – 50 pieces

PHYSICAL PROPERTIES

Form	Polyurethane Foam
Appearance	Grey
Weight	2 grams / emitter
Size	8cm X 2.5cm X 0.5cm

North & South America

Warehouse Address

1450 Government Road West
Kirkland Lake, Ontario P2N 2E9 Canada
