

PRODUCT INFORMATION

VAPPRO 700 MAGNA GL

Function:
Vapour Corrosion
Inhibitor (VCI)

Application:
Lubrication

Form:
Liquid

DESCRIPTION

VAPPRO 700 Magna GL is specially developed to enhance operational readiness. It is listed in **NATO Codification System**, with assigned **NATO Stock Number: 9150-32-076-1171**.

VAPPRO 700 Magna GL is a proprietary special lubricant. It is a colorless, wax-free, stainless silicone lubricant that stops binding and squeaking of all moving parts. It has high oxidation resistance, dielectric strength, water repellency and shear ability without breakdown.

VAPPRO 700 Magna GL forms a protective flexible shield on rubber, plastic, leather, metal, wood surface and electrical components when used as a protective coating.

FEATURES

- High water repellency
- Does not attack plastic
- Pleasant Fragrance
- Thermally Stable
- Non-staining
- Non-greasy
- CFC Free
- Non-bioactive
- Non-corrosive
- Essentially non-toxic
- Flexible protective shield
- Includes extension tube for pinpoint accurate application

APPLICATIONS

- Precision instruments, electrical components, rubber, leather, tires, metal and wood surfaces
- Widely used in the automobile and electronic industries
- An ideal product for electrical insulating fluid

DIRECTIONS FOR USE

VAPPRO 700 Magna GL can be applied by spraying 25-30cm away from the work piece. Applicable for aerosol products only.

PACKAGING

Case – 4 X 5 Liter Jugs

20 Liter Drum

200 Liter Drum
