

PRODUCT INFORMATION

VAPPRO 811G

Rust Removal Gel

Function: Scale &
Rust Remover

Application:
Surface Preparation

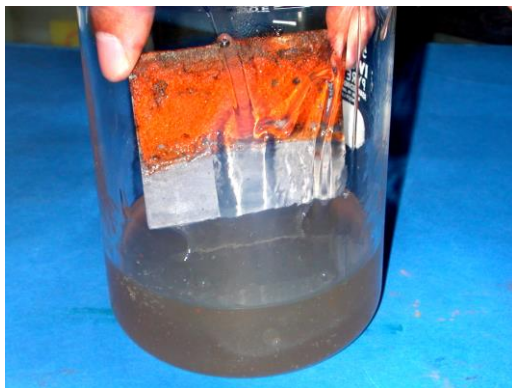

Form:
Viscous Gel

DESCRIPTION

VAPPRO 811G is a gel-like scale and rust remover. It is a dark amber, viscous gel that effectively removes rust, stains and tarnish from iron, steel, brass, copper, aluminum and chrome.

It is specially formulated to remove calcium and magnesium scales, corrosion from both ferrous and non-ferrous metals without creating waste disposal difficulties.

It is essentially non-flammable and has a mild odour properties and is designed for use in well ventilated areas and outdoor applications.

Dip Application

Treated with **VAPPRO 811G**

FEATURES

- Non-flammable
- Prevents flash rusting
- Safer to handle than liquids. Use and store
- Effectively removes scales, stains, rust, and tarnish from most surfaces
- Suitable for vertical and underside horizontal surfaces
- Non-dripping

APPLICATIONS

- Automotive, marine and industrial equipment
- Marine and offshore superstructures
- In-process rust removal for metal parts

- Heat exchangers
- Boilers
- Pumps
- Exterior and interior surfaces of tanks and vessels

DIRECTIONS FOR USE

- Apply **VAPPRO 811G** by means of a brush directly on rusted surfaces and leave for 20-30 minutes before wiping and rinse-off with fresh water. Leave product on longer for severe rusted surfaces.
- For dip application, remove heavy deposits or flake rust. Soak part(s) in **VAPPRO 811G** as long as required to remove corrosion, scales and carbon deposits.
- Remove from tank and rinse with **VAPPRO 800** for added protection.

PACKAGING

- 20 Litre pail
- 200 Litre drum

PHYSICAL PROPERTIES

Appearance	Dark amber viscous gel
Flash point	Non-flammable
Viscosity	Viscous gel
Odour	Mild
pH	2±0.5
