

VAPPRO 851 FUEL-COR

NATO STOCK # 6850-32-076-1132

Function:

Vapour Corrosion Inhibitor (VCI)

Application:

Fuel Additive

Form:

Liquid

DESCRIPTION

SLUDGE DISPERSANT AND COMBUSTION IMPROVER

VAPPRO 851 Fuel-Cor is a premium quality blend of solvents and dispersant detergents that have been fortified with VCI to minimize the effects of fuel instability, that cause corrosion in fuel-system.

VAPPRO 851 Fuel-Cor is a free flowing compound developed to dissolve sludge, prevent fuel stratification in fuel tank and protect the fuel-system from corrosion.

It cleans, keeps the active fuel system clean and reduces black smoke by improving combustion.

FEATURES

- Protects the fuel system from corrosion
- Reduces black smoke
- Dissolves sludge formed during storage
- Disperses existing agglomerates in the fuel as very fine particles and prevents stratification
- Prevents blocking of filters and keeps fuel injectors clean
- Prevents asphaltic matter in the fuel from agglomerating and so limits formation of deposits in tank bottoms and transfer lines
- Extends periods between overhauls of injection system
- Improves fuel stability
- Reduces unburnt particles
- Does not require elaborate dosing equipment
- Improves combustion

DIRECTIONS FOR USE

VAPPRO 851 Fuel-Cor is to be introduced into the storage tank before bunkering or to be added into fuel tank prior to refilling of fuel.

~ Dosage – 1% by volume.

PACKAGING

- 20 Litre container
- 200 Litre drum

PHYSICAL PROPERTIES

Appearance	Amber free flowing liquid
Viscosity	Free Flowing
Density 15°C	0.73 ASTM D86-90
Flash Point	98°C ASTM D93-90
Odour	Bland
pH	7
Cetane Index	77.7 ASTM D976-91
Pour Point	-3°C ASTM D97-87

North & South America
