

VAPPRO®

VAPOUR CORROSION INHIBITOR

Your Corrosion Solution

PRODUCT INFORMATION

VAPPRO 852 VCI HYDRAULIC OIL

NATO Stock Number 6850-32-076-3553

Function:

Vapour Corrosion
Inhibitor (VCI)

Application:

Hydraulic Oil Additives

Form:

Liquid

INTRODUCTION

VAPPRO is your key to operational superiority. **Magna** has successfully preserved military vehicles, weapons and its systems, optical and electronics equipment in the Asia Pacific Region.

Hydraulic and Transmission oil systems are susceptible to corrosion caused by condensation of humid air. The said problem is more prevalent in countries located in the tropical region, immobilizing machines, military equipment and vehicles.

Magna has developed **VAPPRO 852 VCI Hydraulic oil** additive to combat this major problem. It's an excellent product for protecting hydraulic and transmission systems against corrosion during long-term storage and thus enhancing the operational readiness of the military equipment.

DESCRIPTION

VAPPRO 852 is a free-flowing colorless liquid specially developed to protect hydraulic and transmission systems from corrosion.

Its proprietary anti-corrosion compound offers excellent corrosion control for both ferrous and non-ferrous metals. **VAPPRO 852** performs effectively even under adverse conditions of very high relative humidity and in the presence of chlorides and sulfur compounds. It contains no hazardous chromates, nitrites or phosphates. When added to hydraulic or transmission fluids, it enhances the corrosion inhibition characteristics, and does not cause any adverse effects on hydraulic hoses, seals or rubber components.

Hydraulic Systems work smoothly with **VAPPRO 852**.

FEATURES

- Does not attack rubber hose, seals or rubber components
- Protects both ferrous and non-ferrous metals
- Does not contain nitrites, chromates or heavy metals
- Performs effectively even in under adverse conditions of very high relative humidity
- Unique Vapor Phase action protects difficult-to-reach areas
- Provides up to 30 months of continuous protection
- Listed in the NATO MCRL (Master Cross Reference List) with assigned NATO Stock Number 6850-32-076-3553
- Low dosage

PACKAGING

- 20 Liter container
- 200 Liter drum
- – 5% by volume

PHYSICAL PROPERTIES

Colour	Red
pH	7
Specific Gravity	0.825
Odour	Blend
Viscosity	Free flowing

North & South America
