

PRODUCT INFORMATION

VAPPRO VCI GUN BAG CONFORMS TO MIL-PRF-22019D

Function: Vapour Corrosion Inhibitor (VCI)	Application: Protective Packaging	Form: Gun Bag
--	---	-------------------------

DESCRIPTION

VAPPRO VCI GUN BAG is a significant breakthrough in corrosion protective packaging technology. It offers a new concept in product protection without the need for rust preventative coatings.

VAPPRO VCI GUN BAG offers protection for aluminum alloys and copper while providing excellent protection for ferrous metals, steel, and stainless steel. **VAPPRO VCI GUN BAG** does not change critical electrical or mechanical properties of electronic or electrical components.

VAPPRO VCI GUN BAG conforms to **MIL-PRF-22019D**.

VCI GUN BAG FEATURES

- It does not have to be in contact with metal to protect, the vapours travel to all portions of the enclosure.
- It eliminates messy and greasy handling procedures.
- VAPPRO VCI GUN BAG is clear & transparent thus it allows visible inspection of rifle at all times.
- Has no coating and therefore will not flake, stick, damage or soil products
- The VCI inhibitors will not affect mechanical properties of a packaged item.
- It may be used in conjunction with VAPPRO 815, 818 & 819 gun care products.
- No special handling is required
- Long shelf-life.
- Custom sizes are available to meet customer's specific packaging needs.
- It provides corrosion protection for both ferrous and non-ferrous metals.

APPLICATIONS

Corrosion protection for all firearms.

DIRECTIONS FOR USE

Insert cleaned rifle into VAPPRO Gun Bag and securely press the Velcro together to prevent entry of moisture or air.

PHYSICAL PROPERTIES

Thickness	6 mils (150microns)
Form	Rifle Bag
Appearance	Blue Transparent Film

North & South America
