

Your Corrosion Solution

PRODUCT INFORMATION

VAPPRO ASC VCI ANTI-SEIZE COMPOUND

Function:
Anti-Seize Lubrication

Application:
Pipe Threads

Form:
Paste

DESCRIPTION

HIGH TEMPERATURE ANTI-SEIZE COMPOUND

VAPPRO ASC is a premium quality, lead-free, anti-seize compound. It has been specially developed to provide maximum protection against galling, rusting and heat bonding under the most extreme conditions of heat and pressure.

VAPPRO ASC compound is uniquely formulated with non-melt organic clay, contact corrosion inhibitors, vapour corrosion inhibitors, micro-fine copper powder, non-melting high carbon natural graphite and ashless odourless white oil. This unique combination provides the following properties:

- Reduces wear in areas of high friction
- Reduces torque and eliminates seizing and galling
- Excellent adhering properties to threaded surfaces
- Excellent corrosion inhibition
- Excellent lubrication properties

FEATURES

- Reduces downtime
- Eliminates corrosion
- Facilitates ease and speedy non-destructive repairs
- Provides dry film lubrication
- User friendly
- Extends shelf life of threading parts
- No pot life
- Non-dripping
- VCI inhibitor protects deep recessed areas against corrosion
- Provides ease removal of threaded parts
- No mixing required
- Does not harden, separate or evaporate
- Wide working temperature range from -20°C to 1100°C

APPLICATIONS

- Pipe threads, nuts, bolts, studs, flanges, gaskets, screws, taps, drills, pump and valve packing and valves stems, exhaust manifolds, boilers, heat exchangers, battery posts or use as dry film lubricant.
- **VAPPRO ASC** is invaluable to application of any components that needs to be dismantled.

PACKAGING

- 0.43kg tin can (1 lb)
- 20 Litre pail

PHYSICAL PROPERTIES

Colour	Copper
Solid Content Weight	29%
NLGI Grade 2 Penetration (ASTM D-217)	Worked penetration after 60 strokes at 25°C (0.1 mm) 265-295
Dropping Point (ASTM D-2265)	None

North & South America

Warehouse Address

1450 Government Road West
Kirkland Lake, Ontario P2N 2E9 Canada
