Aliphatic Petroleum Distillates	>50	Mixture	
Hydrotreated napthenic distillate	>45	Mixture	

## SECTION IV - FIRST AID MEASURES

#### Inhalation

Remove person to an uncontaminated area. Administer oxygen if necessary. If breathing has stopped, administer CPR.

#### **Skin Contact**

Remove contaminated clothing. Wash affected area with soap and water. If irritation persists, call physician.

#### **Eye Contact**

Immediately flush with plenty of water for at least 15 minutes. If irritation occurs, get medical assistance.

### **Ingestion**

DO NOT INDUCE VOMITING. Get immediate medical attention.

## SECTION V – FIRE FIGHTING MEASURES

### Suitable Fire-extinguishing media

Foam (alcohol-resistant foam), powder, water fog and carbon dioxide are effective fire-extinguishing agents.

## Specific hazards arising from the chemical

Liquid evaporate very quickly and forms vapour which can catch fire and burn with explosive violence. Invisible vapour spreads easily and can be set on fire by many sources such as pilot lights, welding equipment and electrical motors and switches.

## Special protective actions for fire fighters

Firemen should wear self-contained breathing apparatus and protective clothing when fighting chemical fires.

## SECTION VI – ACCIDENTAL RELEASE MEASURES

## Personal Precautions, Protective Equipment and Emergency Procedures

Eliminate all ignition sources. Ventilate area. Avoid contact with spilled or released material. Immediately remove all contaminated clothing. For guidance of selection of personal protective equipments see Chapter 8 of this Safety Data Sheet.

#### **Environmental Precautions**

Prevent spills from entering drains or sewers and contact with soil.

# Methods and materials for contaminated and cleaning up

For small spills, carefully flush with water. For large spills, contain spills. Do not touch or walk through spilled material. Dike ahead of large spills to prevent run-off. Mop, pump or absorb onto suitable absorbent and place in container for reuse, recycle or proper disposal. Flush area with water to eliminate residues.

# SECTION VII - HANDLING AND STORAGE

## **Precautions for safe handling**

Do not swallow. Avoid eyes and skin contact. Wear recommended protective equipment. Use only with adequate ventilation. Wash thoroughly after handling material.

## Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks and flame. Handle and store in well-ventilated area and keep containers closed when not in use. Do not get in eyes, on skin, on clothing. Do not swallow. Wash thoroughly after handling.

# SECTION VIII - EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Occupational Exposure Limits:**

Naptha Petroleum Distillates

**RCP-TWA: 197=0 ppm** 

## Appropriate engineering control measure

Under normal applications, general ventilation is adequate.

### **Individual protection measure**

**Protective Gloves** 

Neoprene/ PVC gloves.

## **Eye Protection**

Safety glasses with side shields are recommended.

## **Respiratory Protection**

Not required under normal use conditions with good general ventilation. Protect against generated mist/ spray back.
