## PRODUCT INFORMATION

### MAGNA RUST BUSTER

<b>Function:</b> Rust Remover	<b>Application:</b> Rust Remover	<b>Form:</b> Liquid Gel
----------------------------------	-------------------------------------	----------------------------

#### DESCRIPTION

**Magna Rust Buster** is a liquid gel rust remover that effectively removes rust, stains and tarnish from iron, steel, brass, copper, aluminum and chrome.

**Magna Rust Buster** prevents dripping. Unlike conventional liquid rust removers that drip freely. It increases productivity because there is no need to leave parts in the dip tank.

**Magna Rust Buster** can be applied on rusted parts with a brush or roller brush. Allow it to work in. Wipe off or rinse with water.

We recommend a light spray of our **VAPPRO 800 VCI Degreaser** diluted at 1:1-part of water on all treated metal surfaces to neutralize the pH on the metal surface before wiping dry. **VAPPRO 800 VCI Degreaser** helps prevent flash corrosion on metal surfaces.

**Before Treatment**

**After treatment with  
Magna Rust Buster**

#### FEATURES

- Easy waste disposal
- Effectively removes rust, stains and tarnish from ferrous and non-ferrous metal
- Non-dripping
- Easy to handle, use and store
- Non-flammable
- Suitable for indoor, outdoor and marine applications
- Light pleasant scent

The details of our products are given completely free of undertaking. Since their application lies outside our control, we cannot accept any liability for the results. User shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. All rights reserved.

## APPLICATIONS

- Corroded auto parts
- Drill Rods
- Rust removal from tools and other metal parts
- Marine and offshore equipment

## PHYSICAL PROPERTIES

Appearance	Gel
Odour	Mild
Viscosity	Viscous gel
Flash point	Non-flammable
pH	1 ± 0.5

## DIRECTIONS FOR USE

**Magna Rust Buster** can be applied by means of a brush. Apply directly on rusted surfaces and let sit for 30 minutes to 3 hours or longer depending on the severity of the rust before wiping off with a cloth.

It is important to neutralize the pH on the treated metal with **VAPPRO 800 VCI Degreaser Cleaner**. Brush on treated metal parts and allow to sit for about 2 minutes before wiping dry with a cloth.

## PACKAGING

- 20 L Pail
- 200 L Drum

Manufacturing Facility  
1450 Government Rd., West  
Kirkland Lake, ON  
P2N 2E9 Canada
