

PRODUCT INFORMATION

VAPPRO 9818 GUN CLEANER

NATO STOCK NUMBER: 9150-62-076-1614.

Function:
Vapour Corrosion Inhibitor (VCI)

Application:
Firearm Cleaner

Form:
Liquid

DESCRIPTION

VAPPRO 9818 Gun Cleaner is a revolutionary cleaning and anti-corrosion agent. It removes carbon and light corrosion deposits. It leaves behind a thin film of corrosion inhibitors that passivate weapons from corrosion.

VAPPRO 9818 Gun Cleaner is an ozone and environmentally friendly cleaning agent. It enhances the operational readiness of weapons by providing optimum protection from corrosion. It was specifically developed for the cleaning of small arms, automatic weapons, naval and aircraft weapons before and after firing.

VAPPRO 9818 Gun Cleaner is registered with **NATO STOCK NUMBER: 9150-62-076-1614.**

FEATURES

- Triple action: Cleans, removes light rust and coats firearm with a thin film of corrosion inhibitors
- Cleans mechanisms and gun cores quickly and effectively
- Reduces need for multiple chemical agents
- Protective coating provides temporary anti-corrosion protection up to several weeks
- Ozone and environmentally friendly
- Reduces chemical consumption and costs
- VCI Vapour migrates and passivates all recessed areas and cavities
- No need to remove VCI protection
- Enhances operational readiness of the weapon
- Easy to apply

PHYSICAL PROPERTIES

Flash Point	128°F or 39°C
Specific Gravity	0.76
Appearance	Transparent liquid
Viscosity	Free-flowing liquid
Colour	Amber Brown

DIRECTIONS FOR USE

- Spray or apply evenly with a bore brush into gun barrel
- Allow 2 – 4 minutes for it to react
- Once the reaction with the copper oxide is complete a blue solution is observed
- Brush through the barrel with a bore brush
- Pull through the barrel using the standard cleaning kit

METALS PROTECTED

- Carbon Steel
- Stainless Steel
- Copper and copper alloys
- Aluminum

PACKAGING

- 20L Pail
- 200L Drum

Manufacturing Facility
1450 Government Rd., West
Kirkland Lake, ON
P2N 2E9 Canada
