

BIOZYMES 1010

BATHROOM CLEANER & ODOUR ELIMINATOR (Super Concentrated)

UNLOCK THE MAGIC OF NATURE WITH BIOZYMES 1010

Biozymes 1010 biological formulation consists of a synergistic blend of selected microorganisms that provides exceptional cleaning performance over a wide range of organic waste related applications.

Biozymes 1010 is specifically designed for bathroom cleaning applications. The multiple enzymes plus the biodegradable blend of surfactants make cleaning a breeze.

Biozymes 1010 can also be used as a urinal drip. It provides a safe natural cleaning solution for many types of organic waste, stains and eliminates bathroom odour.

FEATURES

- Fast acting enzymatic biodegradation property allows the bacterial activity to work more effectively
- Superior bacteria germination increases bacterial activity in organic waste applications
- Ideal for use in aerobic and anaerobic environments
- Eliminates odour quickly
- Rapid cleaning action
- Effortless organic removal

APPLICATIONS

Biozymes 1010 provides exceptional performance across multiple applications:

- Odour Eliminator
- Bathroom Cleaner and Deodorizer
- Carpet and Fabric Care – odour and stain removal of milk, vomit, urine, feces, blood, coffee, wine etc.
- Trap and Drain maintenance for grease deposits and odour control

DIRECTIONS

Apply with a manual pump sprayer or with a mop
Ensure that all surfaces areas are treated thoroughly
Apply "wet" and leave overnight – rinsing is optional
Spray around urinals, sinks, bathroom floors, walls and other areas to eliminate odours
Use product as is

PRODUCT CHARACTERISTICS

Description	Off-White to Yellow Liquid
Fragrance	Pleasant Floral
Stability	Max. loss 1 log/year
pH	7.0 – 9.0
Bacteria Count	10X: 500 million CFU/g 20X: 1 billion CFU/g

STORAGE AND HANDLING

Store in a cool dry place. Do not drink. Avoid eye contact.
